PROFESSIONAL EXPERIENCE

Senior Customer Support Executive - Operations | RNFI Services Limited
Jan 2024 – Sep 2026 | New Delhi, India

- Handled high-volume service and operational queries related to fintech and banking products, including UPI, AEPS, DMT, BBPS, and MATM.
- Investigated complex transaction failures, payment discrepancies, settlement concerns, and service issues; coordinated closely with technical, banking, and partner teams through resolution.
- Managed customer and retailer escalations, tracked strict SLA and TAT commitments, and drove comprehensive case follow-ups until final closure.
- Maintained accurate case notes, precise ticket categorization, and detailed service records to support rapid resolution and clear customer communication.
- Supported KYC verification, retailer onboarding, queue monitoring, operational reporting, and process-compliance activities.
- Communicated critical service updates to customers and retailers, including targeted bulk-SMS notifications when required.

Assistant Manager - Customer Support & Enterprise Telecom Operations
Dec 2016 – Jun 2022 | Pune, India

VOIS (Vodafone Intelligent Solutions) - Vodafone Ireland Account

- Managed email, chat, and call requests from Account Managers, Sales Managers, Government Account Managers, retailers, channel partners, and enterprise vendors.
- Processed complex telecom service requests including new connections, prepaid-to-postpaid migrations, SIM replacements, ownership transfers, add-on services, disconnections, and reconnections.
- Resolved billing and account queries, encompassing debit/credit adjustments, billing recalculations, billing-suite updates, and invoice preparation or dispatch.
- Supported Vodafone Bulk Text account setup, portal configuration, billing-charge setup, user training, and ongoing technical service queries.

- Assisted with One Net account setup, landline-on-mobile services, virtual landline configuration, NAC code requests, and fixed-line provisioning.
- Managed Geographic Number Portability (GNP) requests for fixed-line numbers moving between Vodafone and other providers, ensuring strict compliance with applicable procedures.
- Supported Microsoft Cloud Solution Provider (CSP) services through tenant creation, license assignment, portal setup, and customer/user training.
- Kept customers and key stakeholders informed, coordinated with carriers and external service providers on complex technical issues, and tracked cases through full restoration and closure.
- Logged and prioritized high-priority incidents in BMC Remedy and Service Navigator based on customer impact and P1-P4 SLA priorities; coordinated L1/L2 and field-engineer support.

Senior Executive - UK Customer Support | **TTEC** **Aug 2015 – Nov 2016 | Ahmedabad, India**

- Provided international voice and email customer support in a fast-paced, high-volume service environment.
- Listened actively to customer concerns, troubleshot service issues, explained clear next steps, and escalated complex technical cases to appropriate internal teams.
- Maintained flawless CRM records and comprehensive case notes while adhering strictly to quality standards, service-level agreements (SLAs), and internal customer-service procedures.

KEY ACHIEVEMENTS & SELECTED CONTRIBUTIONS

- **Proactive Communication:** Spearheaded proactive customer and retailer updates via bulk-SMS service communications to minimize inbound repeat queries.
- **Operational Efficiency:** Strengthened case follow-up workflows through structured ticket updates, stringent escalation tracking, and seamless shift handovers.
- **Quality Control:** Identified recurring service and transaction failures and successfully coordinated corrective action plans with cross-functional technical teams.
